The Rules

- 🧭 Each clue identifies a spot on your treasure map and gives you a riddle to solve. To complete the treasure hunt, you need to mark each spot on your map with the correct letter and correctly fill out the answer to each riddle. To make things a little easier, for each clue we've shown you exactly how many letters the answer should have.
- 🧭 All entries must be delivered to the store by **7:00 P.M. by Friday, October 16, 2015**. We will announce the winners on our Facebook page by the end of the week.
- 🧭 You do not need to solve all the clues to enter. If no one gets all the correct answers, then the teams that get the most will still be eligible to win.
- 🧭 One entry per crew.
- 🧭 One prize per family.

The Prizes

Four prizes will be awarded as follows:

- 🧭 One prize for the first complete and correct entry received at the store.
- 🧭 Three additional prizes for the first complete and correct entries drawn from the remainder.

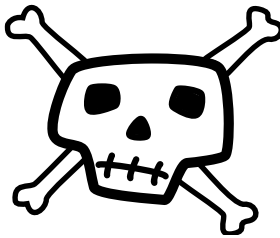

Some Hints

- 🧭 Some of the clues are easy and some are hard. In some cases, the clue will get you right to the spot, in others only visiting a spot will give you the information you need to match it back to the clue.
- 🧭 The spots on the map are quite large, but they've been carefully placed to get you as close as possible to the target.
- 🧭 As for the riddles, some might fall to the awesome power of Google, but most require you to visit the spot and wander around a bit.
- 🧭 Good luck!

[Scooter Girl Toys](#) is located at 187 Roncesvalles Avenue, just north of Fern—but then you probably already knew that. And you probably already knew the answer to this riddle anyway, since we had already filled it out on your treasure map.

B Somebody sneezed or maybe they coughed
To make the breeze that keeps this aloft.

(F) (E) (A) (T) (H) (E) (R)

The Feather Factory Lofts are located at the corner of Dundas West and Ritchie, the former site of the Toronto Feather and Down Factory. The [original three-storey building](#) was constructed in 1911 for the manufacture of eiderdown duvets. The top two stories and cornice were added in 1922.

C Tired of hunting? Then rest your rump
On this thing whittled from a stump.

(C) (H) (A) (I) (R)

This unique and comfortable creation (right) is still firmly rooted at the southeast corner of Grenadier pond, although it probably wasn't whittled so much as chain-sawed. We saw it as a chair, but a enough of our smaller hunters found they could sit on it side-by-side and call it a "bench," so we accepted that answer, too.

D If Martin's trail leaves you grim,
Just give Jay Hoots's park a spin.

(B) (I) (K) (E)

For cyclists bored of the Martin Goodman Trail, the City of Toronto, in 2013, commissioned Jay Hoots, the most experienced bike-park designer in North America, to design the [Sunnyside Bike Park](#), located off-road at the corner of Ellis Avenue and Lakeshore Boulevard.

M A R I L Y N

On the evening of September 19, 1954, 16-year-old Marilyn Bell became the first person to swim across Lake Ontario. She entered the water in Niagara-on-the-Lake and swam for 20 hours and 59 minutes. G When Irving Burman lost his mind
How many blocks did he leave behind?

2

In 1967, High Park hosted an [International Sculpture Symposium](#). Irving Burman was one of twelve artists—and the only Torontonian—invited to participate and had two blocks of granite delivered to the site. Unfortunately, before he began his work, Mr. Burman suffered a breakdown and neither he nor anyone else had any idea of what he had intended to create. The City later prepared a base for the two pieces in an arbitrary orientation, where they remain today in the fork between Colborne Lodge Drive and Spring Road.

H A place for play (and a bit of learning)
But just a sec, I see something burning!

G R E N A D I E R

The Grenadier Restaurant, deep in High Park, advertises an early-bird breakfast special for just \$3.99. The restaurant, of course, is named for the pond, the pond for the soldiers that

once picnicked there, and the soldiers for the grenades they carried into battle. Boom!

But can you name her concrete friend?

T O R T O I S E
